

# Call for Submissions

## Journal of Video Ethnography

The newly launched *Journal of Video Ethnography* (JVE) is the first ever peer-reviewed journal of ethnographic films and videos. JVE aims to advance the social scientific use of video/film as a method for exploring human society, systems, and cultures and as a medium for presenting the findings of those explorations.

Our primary objective is to establish a mechanism for the peer review of films that have social science ideas at their core. We expect that most submissions will come from academics who make films. This said, we also aspire to bridge the gap between academia and commercial documentary film and to provide a vehicle for the distribution of films by non-academic filmmakers whose films constitute an ethnographic point of view on a culture, group or phenomenon.

**Submissions for the premier edition of the journal will be accepted until March 31.**

Films submitted for the first issue will undergo single-blind peer review by a panel of three ethnographer-filmmakers. Reviews will be conducted between April 1 and June 15. Submitters must be willing to "revise and resubmit" their films as a result of the review process.
